To whom this may concern,
I would like to extend my heartfelt thanks and appreciation to the counsellors and staff of the Continuing Education Program at E.A. Lovell School in Oshawa, for their helpful advice and guidance towards my goal of completing my high school education.

I am a recently retired 57 year old man who dropped out of high school in grade ten at 16 years old. Although I consider myself to be successful in my life and have accomplished many personal achievements I had yet to achieve my own personal "Mount Everest."

This personal two handed swing, of my arms, over my head, and firmly planting my flag into the snow capped summit of my "Mount Everest" is the most satisfying, liberating journey I have "finally" ever taken.

I would especially like to thank Suzanne Scanlon for her patience and great advice, Cody Dinis for her encouragement and her "You CAN DO THIS" approach, and Tom Dias for his unique style of teaching in a way that is not only challenging, but is interesting to each individual student at their own personal level.

With much thanks and appreciation
Nick Grimes.
