

Course	Program	Grade	Course Dates	Level
<b>ENG1DX</b>	Credit Recovery (Real-time) Semester 2	9	Tue, July 19 to Fri, July 29	Academic

**Course Name**  
English

**Prerequisite**  
Unsuccessful in ENG1D1 within the last two years and home school approval.

**Description**

This course is designed to develop the oral communication, reading, writing, and media literacy skills that students need for success in their secondary school academic programs and in their daily lives. Students will analyse literary texts from contemporary and historical periods, interpret informational and graphic texts, and create oral, written, and media texts in a variety of forms. An important focus will be on the use of strategies that contribute to effective communication. The course is intended to prepare students for the Grade 10 academic English course, which leads to university or college preparation courses in Grades 11 and 12.

Course	Program	Grade	Course Dates	Level
<b>ENG1PX</b>	Credit Recovery (Real-time) Semester 2	9	Tue, July 19 to Fri, July 29	Applied

**Course Name**  
English

**Prerequisite**  
Unsuccessful in ENG1P1 within the last two years and home school approval.

**Description**

This course is designed to develop the key oral communication, reading, writing, and media literacy skills students need for success in secondary school and daily life. Students will read, interpret, and create a variety of informational, literary, and graphic texts. An important focus will be on identifying and using appropriate strategies and processes to improve students' comprehension of texts and to help them communicate clearly and effectively. The course is intended to prepare students for the Grade 10 applied English course, which leads to college or workplace preparation courses in Grades 11 and 12.

Course	Program	Grade	Course Dates	Level
<b>ENG2DX</b>	Credit Recovery (Real-time) Semester 2	10	Tue, July 19 to Fri, July 29	Academic

**Course Name**  
English

**Prerequisite**  
Unsuccessful in ENG2D1 within the last two years and home school approval.

**Description**

This course is designed to extend the range of oral communication, reading, writing, and media literacy skills that students need for success in their secondary school academic programs and in their daily lives. Students will analyse literary texts from contemporary and historical periods, interpret and evaluate informational and graphic texts, and create oral, written, and media texts in a variety of forms. An important focus will be on the selective use of strategies that contribute to effective communication. This course is intended to prepare students for the compulsory Grade 11 university or college preparation course.

Course	Program	Grade	Course Dates	Level
<b>ENG2PX</b>	Credit Recovery (Real-time) Semester 2	10	Tue, July 19 to Fri, July 29	Applied

**Course Name**

English

**Prerequisite**

Unsuccessful in ENG2P1 within the last two years and home school approval.

**Description**

This course is designed to extend the range of oral communication, reading, writing, and media literacy skills that students need for success in secondary school and daily life. Students will study and create a variety of informational, literary, and graphic texts. An important focus will be on the consolidation of strategies and processes that help students interpret texts and communicate clearly and effectively. This course is intended to prepare students for the compulsory Grade 11 college or workplace preparation course.

Course	Program	Grade	Course Dates	Level
<b>MFM1PX</b>	Credit Recovery (Real-time) Semester 2	9	Tue, July 19 to Fri, July 29	Applied

**Course Name**

Foundations of Mathematics

**Prerequisite**

Unsuccessful in MFM1P1 within the last two years and home school approval.

**Description**

This course enables students to develop an understanding of mathematical concepts related to introductory algebra, proportional reasoning, and measurement and geometry through investigation, the effective use of technology, and hands-on activities. Students will investigate real-life examples to develop various representations of linear relations, and will determine the connections between the representations. They will also explore certain relationships that emerge from the measurement of three-dimensional figures and two-dimensional shapes. Students will consolidate their mathematical skills as they solve problems and communicate their thinking.

Course	Program	Grade	Course Dates	Level
<b>MFM2PX</b>	Credit Recovery (Real-time) Semester 2	10	Tue, July 19 to Fri, July 29	Applied

**Course Name**

Foundations of Mathematics

**Prerequisite**

Unsuccessful in MFM2P1 within the last two years and home school approval.

**Description**

This course enables students to consolidate their understanding of linear relations and extend their problem-solving and algebraic skills through investigation, the effective use of technology, and hands-on activities. Students will develop and graph equations in analytic geometry; solve and apply linear systems, using real-life examples; and explore and interpret graphs of quadratic relations. Students will investigate similar triangles, the trigonometry of right triangles, and the measurement of three-dimensional figures. Students will consolidate their mathematical skills as they solve problems and communicate their thinking.

Course	Program	Grade	Course Dates	Level
<b>MPM1DX</b>	Credit Recovery (Real-time) Semester 2	9	Tue, July 19 to Fri, July 29	Academic

**Course Name**

Principles of Mathematics

**Prerequisite**

Unsuccessful in MPM1D1 within the last two years and home school approval.

**Description**

This course enables students to develop an understanding of mathematical concepts related to algebra, analytic geometry, and measurement and geometry through investigation, the effective use of technology, and abstract reasoning. Students will investigate relationships, which they will then generalize as equations of lines, and will determine the connections between different representations of a linear relation. They will also explore relationships that emerge from the measurement of three-dimensional figures and two-dimensional shapes. Students will reason mathematically and communicate their thinking as they solve multi-step problems.

Course	Program	Grade	Course Dates	Level
<b>MPM2DX</b>	Credit Recovery (Real-time) Semester 2	10	Tue, July 19 to Fri, July 29	Academic

**Course Name**

Principles of Mathematics

**Prerequisite**

Unsuccessful in MPM2D1 within the last two years and home school approval.

**Description**

This course enables students to broaden their understanding of relationships and extend their problem-solving and algebraic skills through investigation, the effective use of technology, and abstract reasoning. Students will explore quadratic relations and their applications; solve and apply linear systems; verify properties of geometric figures using analytic geometry; and investigate the trigonometry of right and acute triangles. Students will reason mathematically and communicate their thinking as they solve multi-step problems.

Course	Program	Grade	Course Dates	Level
<b>MTH1WX</b>	Credit Recovery (Real-time) Semester 2	9	Tue, July 19 to Fri, July 29	De-streamed

**Course Name**

Mathematics

**Prerequisite**

Unsuccessful in MTH1W1 within the last two years and home school approval.

**Description**

This course enables students to consolidate, and continue to develop, an understanding of mathematical concepts related to number sense and operations, algebra, measurement, geometry, data, probability, and financial literacy. Students will use mathematical processes, mathematical modelling, and coding to make sense of the mathematics they are learning and to apply their understanding to culturally responsive and relevant real-world situations. Students will continue to enhance their mathematical reasoning skills, including proportional reasoning, spatial reasoning, and algebraic reasoning, as they solve problems and communicate their thinking.
